Date of Birth: April 11, 2006

Professional Summary

Motivated Computer Science Engineering student with a strong foundation in AI, full-stack development, and cybersecurity. Demonstrates practical experience through hands-on projects in intelligent systems and web development. Passionate about leveraging technology to solve real-world problems, with growing proficiency in penetration testing, network security, and machine learning.

Education

Sri Venkateswara University College of Engineering <i>B.Tech – Computer Science Engineering (AI Specialization)</i>	Tirupati, India <i>2023 – Present</i>
- Currently pursuing 3rd year; coursework includes AI, ML, Data Structures, Computer Networks, and OS. - Active member of the University Programming Club and Cybersecurity Team.	
Sri Venkateswara Government Polytechnic <i>Diploma – Computer Science Engineering (CME)</i>	Tirupati, India <i>2021 – 2023</i>
Completed technical diploma with focus on computer hardware, software fundamentals, and network essentials.	
Keshava Reddy Concept School <i>Secondary School Certificate (SSC)</i>	Tirupati, India <i>Completed 2021</i>
Excelled in Mathematics and Science; active in technical clubs and science exhibitions.	

Technical Skills

Programming Languages: Python, C, C++, JavaScript, HTML, CSS
Cybersecurity: Kali Linux, Penetration Testing, Firewall Configuration, Network Security, AI-Powered Defense
Web Development: Full Stack Development, Responsive Design, REST APIs
AI/ML: Machine Learning, Deep Learning, NLP, Prompt Engineering
Tools & Platforms: Git, GitHub, Linux Administration, Cloud Computing, VS Code

Projects

- Vigilant AI Defender | *Python, NLP, Cybersecurity***
- Engineered an intelligent cybersecurity assistant using NLP for automated threat analysis and vulnerability scanning.
 - Implemented secure authentication protocols and real-time monitoring for proactive threat detection.
 - Designed a chatbot interface enabling users to query security status and receive plain-language threat summaries.
- Boredom Mindgames Website | *HTML, CSS, JavaScript***
- Developed a full-stack interactive web platform featuring cognitively stimulating games and challenges.
 - Implemented dynamic logic-based algorithms supporting varied difficulty levels for a personalized experience.
 - Built a fully responsive UI ensuring seamless performance across desktop and mobile devices.

Leadership & Extracurricular

Event Coordinator – Cynosure 2k25 <i>Sri Venkateswara University – Premier Technical Symposium</i>	2025
Managed team operations and logistics for the university's flagship technical event.	
Volunteer – Youthostav <i>Community Engagement Program</i>	2024
Contributed to youth-driven community initiatives demonstrating teamwork and organizational skills.	

Language Proficiency

Telugu: Native **English:** Fluent **Hindi:** Conversational

Areas of Interest

Cybersecurity • Ethical Hacking • Artificial Intelligence • Penetration Testing • Network Infrastructure • Machine Learning • Deep Learning • Cloud Computing • Full Stack Development • Prompt Engineering
